Democrats propose to "relieve" the people by removing the "grinding tax" on wool, of which we imported to the value of \$19,688,108

in 1892. But then they turn round and propose to tax tea, coffee and sugar, of which last year's imports were valued at \$249,729,450

That is, for every dollar's worth of "untaxed" wool they will impose new taxes on \$13 worth of other products. —New York Press.

The antics of "Buck" Kilgore are impelling even Democrats to sigh for the master hand of "Clear" Reid.

The latest piece of important information is that Grover Cleveland has been elected President. It comes from no less an authority than the Vice-President of the United States.

At a public meeting in Simcoe, Canada, the other day 272 votes were cast for annexation, 6 for Canadian Independence, 4 for Imperial Federation, and 17 for the status quo. Who says we can't have Canada?

When the striking street railway employees of Wheeling, W. Va., resorted to violence in driving non-union men from the cars and beating them into the bargain, they placed their cause beyond the possibility of success. If a strike cannot be won by peaceful and lawful means it cannot be won at all.

What with Mr. Cleveland endeavoring to force the present Congress to revoke the Sherman Silver act, with Western and Southern Democratic Legislatures adopting resolutions against repeal, and with "Dave" Hill standing "in the middle of the road" the "unnality" of the Democratic party is something beautiful to behold.

Free-trader Schoenhof, arguing for a duty of two cents a pound on sugar, asserts that the opposition to it is based on the "merely sentimental notion" of "a free breakfast table." The working-man will not see much sentiment in it when he is called upon to pay a 40 per cent. tax on every pound of sugar his family consumes.

The Boston Herald declares that half of the present pension payments are "iniquitous" and "quite a part" of the rest are unnecessary. The Boston Herald proposes to have "Free-trade reform" if every old veteran has to go to the poorhouse. One thing is certain—the old veterans would have plenty of company in such an event.

The re-election of Michael Davitt to Parliament is a favorable omen for home rule. Mr. Davitt possesses the confidence and love of the Irish people to a remarkable degree. Sprung from the common people, he understands the character, needs and aspirations of the Irish masses perhaps more accurately than any other Irishman living.

Sir Edward Sullivan estimates that 20,000,000 persons, an actual majority of the whole people, depend upon agriculture for a livelihood in the United Kingdom. Since they are awakening to their crying need of Protection, and have the numerical strength to enforce the demands, it is plain that Free-trade by no means occupies an impregnable position in Great Britain.

Our new vessel, and that a mere gunboat, to cost over \$100,000, is all the "economical" House proposes to authorize toward the upbuilding of an American navy. Contrast this with the magnificent appropriation of \$15,000,000, ostensibly for rivers and harbors, but merely for the benefit of selfish local interests and to reward local politicians, and you can get an accurate idea of Democratic "economy."

DURING the past twenty years 228,000 divorces have been granted by the courts of the United States, 90 per cent. of them to women. While this total is large enough to appear to give good grounds for the assertion that the perpetuity of the family is threatened, says *Woman's Magazine*, it dwindles when brought into comparison with the number of marriages during the same period. One-twentieth of the total is 14,400, the number granted each year, only about one per cent. of the number of marriages.

The majority and minority reports from the Kentucky Board of Sinking Fund Commissioners regarding the indebtedness to the state of the Mason-Forde Company have been submitted to the Legislature.

The minority report embodies the statement of Governor Brown and Secretary of State Hendley, and the majority report that of Auditor Norman, Attorney General Hendrick and Treasurer Hale.

The former claim that the sinking fund Company is indebted to the state to the amount of \$94,000. The latter places the indebtedness at a figure approximating one eighth the amount claimed by the Governor.

For Selling His Vote.

Convictions for selling a vote are as rare in Kentucky as indictments for participating in the work of a mob, says *The Courier-Journal*. GIGANTIC STEAL.

Wabash System Robbed By Its
Trusted Employees.

The Freight Cars Entered by the Re-
moval of Bolts.

Which Prevented Destroying the Box
and Covered Up the Robber's Tracks
—Gains of \$200,000 Are Taken.

KANSAS CITY, Mo., Feb. 13.—For the past two years the Wabash Railway Co. has been the victim of the most gigantic stealing trip from which any railway ever suffered. During that time the company has lost from freight cars valuable merchandise of every description, the total value of which foot up not less than \$200,000 as far as now traced, and it may amount to a great deal more than that. The officials of the company knew that they were being victimized by a bold and clever gang of thieves, but, as they are confident that the thieves are the place or the men. Three months ago the matter was placed in the hands of two of the most noted detectives in this country, and they went to work on the case.

In one month they solved the mystery of how this stealing was done and learned the fact that the thieves were a band of conspirators, comprising as many as fifty trusted employees of the company, together with a few outsiders who were used to do the actual work. The first thing noticed by the detectives was the manner in which the robbers covered up their tracks. Instead of tampering with the bolts, the usual way of pilfering a car these men did not injure a seal. After a careful scrutiny of the cars it was concluded that a smooth trial was being conducted to gain entrance. Here and there a seal was found to be tampered with, and the door would drop slightly and this would allow the door to free itself from the upper runway and the door would drop, through which the seal was wired, would set as a hinge by which the door could be swung out wide enough to allow a man to enter. Once inside the most valuable freight which could be handled in small parcels was handed to the confederate, who would plant it in such time as the train would pass quietly, and while seated on a sofa was immediately surrounded by senators from both sides of the chamber, coming to the door and paying their respects. Vice-President Morton left his place in the chair to meet him, and during the brief time he remained in the chamber his reception was an ovation.

Received a Life Sentence.—LEBANON, Ky., Feb. 13.—In the Madison circuit court, John Ray was convicted of murder, and his punishment fixed at a life sentence. Hut and Will Johnson attended a dance in this city a few weeks ago. The dance was started when Hut gave Will Johnson a pistol and told him to shoot Tom Grinstead. Johnson fired and Grinstead fell dead. Johnson fled and has not been arrested, although Gov. Brown has offered a reward for him.

The Spector Shadow Spreading
In Europe.

Just Now It Is No Larger Than a
Man's Hand, But Growing.

NEW YORK, Feb. 13.—The London correspondent of the World cables the following: "A tiny shadow, foretelling the great plague that is to be, has fallen across the land. Just now it is no bigger than a man's hand, but it is sure to grow, daily, steadily, inevitably. It will also have a shadow of its own in its black. Not in one place has the attack been made, but as if by a given signal, in three widely-distributed countries the onslaught of the cholera has begun.

From far-away St. Petersburg comes the news, wholly unexpected, of course, that ten persons have died of cholera with the cessation of the frost. From the plague has all the added horror and danger of the cholera being tried hard to cover up the dead to quiet the fears of the living, for no hint of this fact has been given to the public. But, worst of all, and directly affecting America, is the news from Hamburg. The weather is moderating all over the continent, and the warm sun is making black holes in the ice. So this week promises to show a wider spread of the great plague. Meanwhile, the German government is making all nations to an international health congress, to formulate some plan for fighting the common foe, and, in England, Southey is being urged to vote money to keep up a quiet quarantine.

WASHINGTON, Feb. 13.—Between six o'clock Saturday night and 2 o'clock Sunday afternoon eight persons died of the cholera epidemic, and several others were taken to the hospital. Two patients were discharged as cured. The Swedish consular has refused to issue clean bills of health to vessels sailing from Sweden. A few days ago the Greek government has established by the Greek government for all arrivals from this port.

Not at a Christening.—ST. LOUIS, Feb. 13.—At 909 Chouteau avenue Sunday night there was a celebration and a christening. About 10:30 all present became involved in a riot. Men, women and children participated, and every conceivable weapon was used. In a few minutes the place looked like a slaughter house, the walls, floor and even the ceiling being covered with blood. A wagon load of police finally succeeded in quelling the disturbance. Six of those involved were carried to the dispensary, and their injuries may prove fatal.

Attacked by Wildcats.—LITTLE ROCK, Ark., Feb. 13.—News reached here today that a party of hunters, this county, that Mrs. Gaynor Hicks, who was washing clothes at a spring near her house, was set upon by two wildcats and severely injured before her son could run from the house and kill the varmints. The cats were attracted to the spring by the smell of a deer that had been chased there early in the morning.

Accut Polly Will Attend.—MONTCLAIR, N. J., Feb. 13.—Aunt Polly Davis, the old colored woman, who at one time was presented to the city council calling for the enforcement of the laws relating to gambling, and Sunday school, and named signed as the most wealthy and influential, as well as religious men of Omaha.

Dangerous Plaything.—FLORENCE, Feb. 13.—The 3-year-old son of Reuben Saldar, a farmer living eight miles from Florence, shot and instantly killed his 3-year-old brother and Thursday evening. The two brothers were in a room together alone playing with a loaded gun.

Deadly Gun.—NEW YORK, Feb. 13.—The death is announced at Pau of Maj.-Gen. Sir Thomas Durnell Baker, Gen. Baker was a British soldier, and was killed in the New Zealand war and in Afghanistan. In 1887 he was aide-de-camp of Queen Victoria.

Just now it is no bigger than a man's hand, but it is sure to grow, daily, steadily, inevitably. It will also have a shadow of its own in its black. Not in one place has the attack been made, but as if by a given signal, in three widely-distributed countries the onslaught of the cholera has begun.

From far-away St. Petersburg comes the news, wholly unexpected, of course, that ten persons have died of cholera with the cessation of the frost. From the plague has all the added horror and danger of the cholera being tried hard to cover up the dead to quiet the fears of the living, for no hint of this fact has been given to the public. But, worst of all, and directly affecting America, is the news from Hamburg. The weather is moderating all over the continent, and the warm sun is making black holes in the ice. So this week promises to show a wider spread of the great plague. Meanwhile, the German government is making all nations to an international health congress, to formulate some plan for fighting the common foe, and, in England, Southey is being urged to vote money to keep up a quiet quarantine.

WASHINGTON, Feb. 13.—Between six o'clock Saturday night and 2 o'clock Sunday afternoon eight persons died of the cholera epidemic, and several others were taken to the hospital. Two patients were discharged as cured. The Swedish consular has refused to issue clean bills of health to vessels sailing from Sweden. A few days ago the Greek government has established by the Greek government for all arrivals from this port.

Not at a Christening.—ST. LOUIS, Feb. 13.—At 909 Chouteau avenue Sunday night there was a celebration and a christening. About 10:30 all present became involved in a riot. Men, women and children participated, and every conceivable weapon was used. In a few minutes the place looked like a slaughter house, the walls, floor and even the ceiling being covered with blood. A wagon load of police finally succeeded in quelling the disturbance. Six of those involved were carried to the dispensary, and their injuries may prove fatal.

Attacked by Wildcats.—LITTLE ROCK, Ark., Feb. 13.—News reached here today that a party of hunters, this county, that Mrs. Gaynor Hicks, who was washing clothes at a spring near her house, was set upon by two wildcats and severely injured before her son could run from the house and kill the varmints. The cats were attracted to the spring by the smell of a deer that had been chased there early in the morning.

Accut Polly Will Attend.—MONTCLAIR, N. J., Feb. 13.—Aunt Polly Davis, the old colored woman, who at one time was presented to the city council calling for the enforcement of the laws relating to gambling, and Sunday school, and named signed as the most wealthy and influential, as well as religious men of Omaha.

Dangerous Plaything.—FLORENCE, Feb. 13.—The 3-year-old son of Reuben Saldar, a farmer living eight miles from Florence, shot and instantly killed his 3-year-old brother and Thursday evening. The two brothers were in a room together alone playing with a loaded gun.

Deadly Gun.—NEW YORK, Feb. 13.—The death is announced at Pau of Maj.-Gen. Sir Thomas Durnell Baker, Gen. Baker was a British soldier, and was killed in the New Zealand war and in Afghanistan. In 1887 he was aide-de-camp of Queen Victoria.

The President Will Notify Congress
Through a Special Message.

WASHINGTON, Feb. 13.—Hawaii is ours. The commissioners were told Saturday that the United States would annex the Sandwich Islands and that the president would notify congress to that effect in a special message. Further the commissioners were shown the articles of annexation and were perfectly satisfied with them. The commissioners, accompanied by Dr. Mott Smith, arrived at the department about 10 o'clock and were met by Secretary John W. Foster and Secretary Partridge, of the state department. The document was a most glowing one of the case and a reading of the annexation treaty or papers which the president will send to congress with his message.

The commissioners, on their first meeting with the secretary, gave him their side of the case in which they were completely satisfied. The effort to induce Secretary Foster to send a special message to congress regarding a bill repealing the silver purchase act, and to induce Secretary Partridge to send a special message to congress regarding a bill repealing the silver purchase act, and to induce Secretary Partridge to send a special message to congress regarding a bill repealing the silver purchase act.

Some of the bank presidents called upon Mr. Foster and talked about the gold situation to-day. President W. McCann, of the Chase national bank, and President J. P. Morgan, of the First National bank, were among those who called. They are all in favor of the gold standard, and are all in favor of the gold standard, and are all in favor of the gold standard.

Over hundred years ago there was a paper mill in Georgetown—the first in the state. It was erected by Elijah Craig in 1792. It furnished the paper on which *The Vincennes (Ind.) Sun* was published—at that time the only paper in the West. Georgetown had a theater before Cincinnati had one—*Gleanings, Times*.
